

## **CONNECTION Catalog Update Available for Mitchell 1 (software version 6.5 or higher) Users**

An update is available for Mitchell 1 users with software version 6.5 (or higher) to use the new Parts and Accessories Catalog in CONNECTION. The update also allows the transfer of parts from CONNECTION to Mitchell for repair orders and estimates.

To Load the new Mitchell update:

- 1) Go to <http://m1faqs.com/fix/SE/catalogs/> (Note: the URL is case sensitive)
- 2) From the Manager Files list, locate "16 NexPart ACDelco Connection Catalog from WHI - Mar 18, 2016," click the WHI-ACD link on the right
- 3) A dialog box will ask to Run or Save the file
  - Select Run (If a window opens asking for verification to run the file, select Run)
  - Select Yes from the pop up window
- 4) A new window will open that reads "March 18, 2016 Catalog update for WHI," this is the ACDelco CONNECTION update (CONNECTION is hosted on WHI servers)
  - Click OK
  - Click Install from the next window that opens
- 5) After performing the steps, the confirmation message is: "Completed Copying Catalog Assemblies. Click OK to close the window." The process is complete.
