### ASE Refrigerant Recovery and Recycling Training

**Did You Know?**  
To legally work on Motor Vehicle Air Conditioning (MVAC) Systems, you need a Section 609 credential. We're glad you're here to take care of that. Also, you must use recovery, recovery/recycle, or recovery/recycle/recharge equipment that has met EPA approval and details about this equipment must be reported to EPA on an equipment certification form available from the EPA website at: <http://www.epa.gov/mvac>.

The image shows the cover of a booklet titled "ASE Refrigerant Recovery and Recycling REVIEW AND QUIZ". The cover features the ASE logo, which is a blue gear with the letters "ASE" inside. Below the logo, the text reads "Refrigerant Recovery and Recycling" in a bold, sans-serif font, followed by "REVIEW AND QUIZ" in a smaller font. At the bottom of the cover, it says "EPA-Approved Section 609 Program for Motor Vehicle Air Conditioning (MVAC) Service". A blue diagonal banner in the top right corner of the booklet cover says "Now with R-1234yf". At the very bottom of the booklet cover, there is a small line of text: "This booklet is distributed free of charge and is not to be sold." and "EPA Mar. 2017".

Select the Launch Training Booklet button to access the training material in pdf format for the ASE Refrigerant Recovery and Recycling Program. You may want to print the material for your convenience. Make sure your pop-blocker is turned off.

When you no longer need access to the training material, select the "Mark Training Completed" button. The booklet will no longer appear on your home page when logged in.
